Today all over the world young people had been less their health. In my point of view, it is happened because do not like to do sports and eat healthy food. We are prefer smoke and drink alcohol, not all but most of us. Of course we are often eat junk food. In young age we can't feel all negative side of it, our body care about us a lot but in 30 years and more we will feel it and can't change nothing. I suppose that this problem can solve politics. They can popularised sports, enjoy young people in healthy style of life. It is really good for all people on the Earth.
