I am really like reading books. And if you ask me did I read books on English language, I will answer you that it is true. My favourite English book is "Romeo and Juliet". It was written by William Shakespeare. It is a fantastic love story of two young people who died ^{together} in the end. I liked this book because we can see the true love in it and understand how difficult to love. I am really love English language and I also like reading books, that's why I decided to read this story. And translation of book was simple to read. I easily understand all words and phrases. I think pupils should read books on another language because it's very informative and interesting. But we don't have such books at school library. I hope that ^{they} it will be bought in ^{the} future and everyone will find their favourite book.
